## ***MEDICAL & FITNESS***

Few hotels, conveyances, sites and attractions we will be visiting on this tour are handicap friendly. If you have any disabilities, which cause you to require physical assistance of any kind, please advise us in writing at the time of initial inquiry – before booking.

Consult your medical practitioner for advice on any vaccinations or medication suggested for your travel in Borneo (Sabah and Sarawak) at the time of travel.

Inquiring clients with mobility disabilities or limitations need to discuss with us their participation on this tour. Fitness and agility must enable participants to climb in and out of tour coaches and four wheel drives; climb and descend stairs, and do some moderate cross country walking to commentary positions – several or many times every day. In some cases a “travelling companion” organised by the participant and totally responsible and able at all times for the effective mobility assistance required, may be sufficient. Discussion is welcomed, but the final decision as to eligibility rests with the tour operator with the best interests of all involved in mind.

Clients are also needed to confidentially advise and discuss with us any medical condition which could impact on their welfare and ability to participate fully for the duration of this tour. An “approval to participate” letter from a registered medical practitioner may be required, and a competent travelling companion organised by the participant to be responsible for the monitoring and all assistance which may be needed. Please be aware areas of this tour are some hours away from full scale medical facilities. An appropriate amount of individual medication (and a small reserve) for the duration of the tour needs to be carried and, a copy prescription in case the medicine used is subject of possession limitations in Malaysia.

---

## ***CATERING***

All breakfasts are included in the package.

Self pay meals are suggested at local cafes as selected for lunch stops, and dinner opportunities are at, and near, our overnight accommodation each night.

“Top Spot” local Food Hall – Kuching

Hotel Breakfast

Harbourside dining, Kota Kinabalu

### **Planning Assistance**

Please contact us for assistance with organising this tour. It is part of our folio of tours available for operation given minimum numbers and calendar compatibility. We can assist with packing suggestions for climate and activity requirements; plus help with accommodation for nights outside of operation of the programme.
